## Why Partner With Bogen?

Bogen is renowned for providing innovative telecommunication, audio, and communication solutions throughout various industries. By partnering with Bogen, customers can tap into a wealth of experience and cutting-edge technology to enhance products and service offerings. Our commitment to quality, reliability, and customer satisfaction ensures that partnering companies can trust in a long-term, mutually beneficial relationship. Bogen's emphasis on innovation provides customers with new products to meet advancing technical and regulatory requirements.

### Some of the benefits of partnering with Bogen are:

#### Dedicated Partner Team

Customers benefit from as little or as much support required from our partner team throughout the project lifecycle. To ensure client success, Bogen will provide commercial and technical support, as well as tools and resources to help drive business results.

#### System Design Guide

Bogen created a System Design Guide to help you to understand how a paging system works and how to set one up. It is filled with helpful information and reference material that is sure to help you design and install exceptional systems.

#### 24/7 Self-Paced Training

The Bogen eLearning website provides our customers with 24/7 access to product educational content in the form of detailed, guided tutorials. Training is provided at no cost and most courses are recognized for BICSI CECs.

#### Free Application Design Services

Bogen's Free Application Design Service was created to assist with the design of paging systems for any and every project encountered. It's fast, comprehensive, and at NO COST. Allow our subject matter experts design it for you!

## Technology Partners

### Additional Capabilities Through Technology Partner Integrations

- ✓ Gunshot & Weapon Detection
- ✓ Earthquake Early Warning
- ✓ Classroom Sound Reinforcement
- ✓ Multi-Channel Mass Notification
- ✓ Vape Detection & Air Quality Index

Bogen Strategic Partnerships provide additional capabilities to meet emerging market and collaboration needs
